📍 Wuhan, China

## EDUCATION

<b>Huazhong University of Science and Technology</b> Ph.D in Mechanical Engineering (GPA: 3.72/4.00) <ul style="list-style-type: none"><li>Research Interests: Robot Contact Task, Imitation Learning, Dynamic System, Reinforcement Learning, Optimal Control</li><li>Supervisor: Prof. Fangyu Peng</li></ul>	Sep 2019 - Jun 2024 Wuhan
<b>Huazhong University of Science and Technology</b> M.S in Mechanical Engineering	Sep 2018 - Jun 2019 Wuhan
<b>Nanjing University of Aeronautics and Astronautics</b> B.S in Mechanical Engineering (GPA: 4.0/5.0, Top 6%)	Sep 2014 - Jun 2018 Nanjing

## RESEARCH EXPERIENCE

<b>Fusion representation of force position continuous skills and micro data search based skills generalization of robot machining (National Natural Science Foundation of China)</b> <ul style="list-style-type: none"><li>Design and build a hardware platform for robot machining imitation learning and intelligent control research.</li><li>Propose a robot polishing force-position coupling skill learning method based on expert demonstration.</li><li>Propose a fast segmentation method for the machining stage.</li><li>Propose a contact position estimation method considering the contact torque.</li><li>Propose B-spline dynamic movement primitives to improve trajectory learning accuracy.</li><li>Propose robot machining trajectory generalization method based on reinforcement learning and dynamic system.</li></ul>	Jan 2022 - Present
<b>CNC machining technology and equipment (National Science Fund for Distinguished Young Scholars)</b> <ul style="list-style-type: none"><li>Analyze the chattering phenomena and characteristics in robotic milling tasks, classify the vibration states into four categories.</li><li>Propose a chatter state identification method based on variational modal decomposition and information entropy.</li></ul>	Sep 2018 - Dec 2021

## SKILLS

**Hardware:**  
UR16e, ABB IRB 6660, ATI Gamma & Onrobot HEX Force/Torque Sensor, Onrobot Sander, NAKANISHI & Jager Spindle  
**Software:**  
ROS, MATLAB, Python, C++, MuJoCo, LabVIEW

## HONORS & AWARDS

Scholarship for Outstanding Doctoral Students	Dec 2022
Merit Graduate Student	Nov 2020
Undergraduate School-level Outstanding Graduation Design (Thesis)	Jun 2018
